## Annual Fall Fair at Ganges Sept. 14

Prize List is Larger This Year; District Exhibit Will Again Be a Feature of the Exhibition, Also the Farmers' Display

The twenty-fifth annual exhibition of the Islands Agricultural and Fruit Growers' Association, will be held at Ganges on Wednesday, September 14, and promises to be the best ever held by this organization.

A larger number of prizes are being offered this year, and practically everything in the way of produce, stock, etc., has been included in the list.

As in former years there will be a district exhibit which is to assist the different portions of the Islands District to advertise their agricultural capabilities and general resources. In this exhibit the following rules will be of interest:

Points will be given for arrangement of exhibit. No decorations other than the exhibits specified and the sign denoting the district will be allowed. All carpentry work connected with stage must be completed by Sept. 7.

Stands to be completely furnished and ready for judging before 6 p.m. on Tuesday, Sept. 13.

Entries must be mailed to the secretary on or before Sept. 5 so that space may be reserved.

First prize is \$25; second prize is \$15.

The following seven districts will be eligible to compete: North Salt Spring, South Salt Spring, Cranberry Marsh, Galliano, Mayne, Pender and Moresby Islands.

All staging to be of uniform design. For plans apply to the secretary.

There will also be a Farmers' Display, which has proved so popular in past years. The prizes for this display will be \$25 for first prize, \$15 for second prize, and \$5 for third prize.

A bonus of \$2 will be allowed each exhibitor towards cost of stand.

A floor space of 8 ft. by 4 ft. will be allotted each exhibitor on which to erect his display.

Carpenter work in connection with stand to be completed by Sept. 8. Stands to be completely furnished and ready for judging before 6 p.m. on Tuesday, Sept. 13.

The apple packing contest will be again included. In this contest each contestant must pack three boxes, the time to be taken when contestant places last box on the floor.

Apples are to be packed diagonally. To secure perfect or 20 points for speed, the contestant must pack the three boxes within twenty-five minutes; every three minutes longer will reduce the score two points, and if not finished within 60 minutes the contestant will be ruled out.

The officials of the association this year are: President, J. T. Collins; first vice-president, H. Price; second vice-president, James Horel; secretary, E. H. Streeten, and treasurer, W. M. Mouat. The directors are as follows: J. Akerman, H. Caldwell, W. P. Evans, E. T. Gibson, H. O. Keefer, John Rogers, W. E. Scott and T. F. Speed.

## HOLD PICNIC NEXT SATURDAY

Veterans of France Will Hold Their First Annual Outing Next Saturday, June 25.

There will be a good programme of sports at the picnic to be held at the Experimental Farm grounds next Saturday by the Veterans of France. Free transportation has been arranged for those wishing to attend, and it is expected to be one of the jolliest events of the season. The public is cordially invited to take advantage of this opportunity to have a day's outing, and a good time is assured all present. Vehicles will leave Sidney for the grounds at 145, and the picnicers may return any time between 7 and 9 p.m. Take your children and baskets along and have a real good time.

## CHANGE IN CUSTOMS TARIFF.

An amendment to the customs tariff, passed on June 4, provides for a change in computing the value for duty of the currency of an invoice from a country where the rate of exchange is adverse to Canada. In such case the value for duty in Canadian currency is to be determined by advancing the actual home consumption value by the premium of exchange. For example: on an invoice of goods imported from the United States, where actual home consumption value is \$100 in United States funds and the premium of exchange is 12 per cent, the value for duty purposes will be \$112.

## POLICE SPORTS ON JULY 13

Those wishing to take part are requested to communicate with Mr. P. N. Tester

Any person wishing to compete in the athletic sports to be put on at the Willows, Victoria, on Wednesday, July 13, under the auspices of the Victoria Police Mutual Benevolent Association may obtain an entry blank from Mr. P. N. Tester at the Sidney Hotel. There are thirty-nine events all told and good prizes are given for each event. The meet will be held under the B. C. A. A. U. rules and competitors are requested to produce their amateur card when making their entry, or to the starter. Entries must be in the hands of the games committee not later than 12 noon, July 11. The events include all sort and conditions from races for children from six years up.

## MADE-IN-B. C. DISPLAY.

In connection with the Made-in-B. C. Week, the Sidney Trading Co. has all their large windows devoted to the display of British Columbia products. The more the people of the province and the Dominion buy home products the greater will be the purchasing power of the dollar. Money spent in buying foreign goods is money sent out of the country, which means less work and wages for Canadian citizens.

Travellers from Victoria mention the fact that about the only display on the lower Island is to be seen in Sidney.

## Deep Cove Team Wins From Sidney

Smith's Smitters Bumped Bruce Burton's Beavers at Deep Cove Last Friday; Score Was Nine to Three

Deep Cove and Sidney staged the return lacrosse game at Deep Cove last Friday when the Cove succeeded in turning the tables on Sidney boys in retaliation for their defeat at Sidney on the King's birthday, when Sidney topped the score sheet by 5 to 1.

The Cove boys on this occasion piled up nine goals while Sidney's best collection amounted to 3. Though the score was a little one-sided, the play was fairly even, with Sidney getting first blood in six minutes, Stewart Hill turning the trick. The play then went to the other end when H. North evened the score. Jeff Simpson doing the needful in one minute, and repeating half a minute later. The score at the end of the first quarter stood Deep Cove 3, Sidney 1.

Lionel Crossley, for Sidney, notched a nice goal for his team in three minutes, and Walter Lind repeating and tying the score in two minutes, only to have H. North put Deep Cove in the lead by a neat shot in six minutes, the score standing Deep Cove 4, Sidney 3.

The third quarter was pretty even and went nine minutes before Simpson hit the mark. He repeated again just before the end of the quarter, making it read Deep Cove 6, Sidney 3. Sidney, while playing well and

passing good, had hard luck on the shooting and a little loose checking enabled Jeff to score in three and four minutes respectively, while H. North, for his team, made the ninth and last goal, the score at the end being Deep Cove 9, Sidney 3.

While the Deep Cove team is to be congratulated on their win, on the other hand Sidney lost none of her laurels and no doubt will do better before many more games are played. Sid Humber refereed the game and kept it well in hand.

The teams lined up as follows: Deep Cove—W. North, goal; R. Simpson, point; J. North, cover; F. Simpson, 1st d.; G. Davis, 2nd d.; A. North, centre; L. Bradbury, 2nd home; H. North, 1st home; C. Bradbury, outside; J. Simpson, inside.

Sidney—J. Crossley, goal; J. Anderson, point; V. Pohl, cover; G. Bowcott, 1st d.; S. Hill, 2nd d.; Hecking, centre; Lionel Crossley, 2nd home; "Scotty" Love, 1st home; W. Lind, outside; F. Clanton, inside. Spares—H. Lind, G. McLeod, B. Bowcott, C. Jenner.

Goal umpires—Bert Copithorne and C. Reid.

Timekeepers—D. Harvey and Geo. Hill.

Referee—Sid Humber.

## Dominion Day Sports at Sidney

Indications Are That a Large Number Will Come From Outlying Districts and Adjacent Islands; Good Programme

The Dominion Day Sports Committee has secured a goodly number of prizes for their athletic events on July 1, and have preparations well in hand.

The annual bicycle race from Victoria to Sidney has been changed from a scratch to a handicap, in order to encourage the youngsters to compete. The bicycle dealers in Victoria are giving a helping hand to this event, and are pleased to see the younger and untired riders get a chance in the race. Tommy Peden who has won this race four different times, will be placed on scratch if he decides to start, which is rather doubtful, and the others will be handicapped according to their record. The official handicapper is Joe Hancock, who may be seen at Peden's, and all riders are requested to get in their entries as early as possible with a record, if any, of the events they entered in previous years. Victoria entries can be made to Peden Bros., and entries from Sidney or district to Messrs. J. B. Burton or P. N. Tester, before Monday evening, June 27. The Victoria Chief of Police, Mr. J. Fry, has kindly consented to start the race, which will leave Peden Bros. store on Yates street at 9.30 a.m. Entrants must produce their amateur cards when entering, as none but amateurs are allowed to compete. It is to be strictly understood that any rider caught taking pace from an auto will be disqualified, the committee having arranged to keep a close tab on this occasion in order to avoid any trouble similar to which took place last year.

A special prize is to be given for the time prize winner, and also for the first lad under sixteen years that finishes.

While the race from Victoria is a big attraction, there will also be a senior lacrosse match between the Vancouver Nationals and Sidney, and a very good game is expected.

In addition to these games there will be all kinds of footraces, jumping, etc.

In addition to the programme below there will be a quilt tournament in charge of Mr. F. W. Bowcott, open to Sidney, N. and S. Saanich and the Gulf Islands.

The committee in charge of the Dominion Day sports would be pleased to accept entries for the tug-of-war from Royal Oak, North Saanich, South Saanich, Keating, Salt Spring Island, James Island, Sidney Mills, or any other part of the district.

The sports committee reports the prize list swelling rapidly and are confident that sufficient prizes will be donated for all events on the programme.

## PROGRAMME OF EVENTS

Time	No	Event
10.30 a.m.	1	Finish of Victoria to Sidney bicycle race
10.35 a.m.	2	Football match, Cadets vs. Sidney.
1.30 p.m.	3	Official opening of War Memorial Athletic Park and Children's Playground, by Mr. M. B. Jackson, K.C., M.P.P.
		"Maple Leaf Forever," Vancouver High School Cadet Band, "O, Canada," community sing "God Save the King," Cadet Band
2.00 p.m.	4	Baseball game, Cadets vs. Sidney.
3.30 p.m.	5	100 yds. open to Service Men in uniform
3.32 p.m.	6	440 yds. open
3.35 p.m.	7	75 yds. young ladies, 18 years and over
3.40 p.m.	8	Slow bicycle race
3.50 p.m.	9	100 yds. open to Cadets only
3.55 p.m.	10	75 yds. open to farmers only
4.00 p.m.	11	75 yds. open to married women only
4.10 p.m.	12	100 yds. open to Cadet officers
4.20 p.m.	13	Putting shot, open
4.25 p.m.	14	100 yds. open to boys 15 years and under
4.30 p.m.	15	Grand lacrosse match, Vancouver Nationals vs. Sidney
4.40 p.m.	16	Tug of war, open 5 men a side
4.45 p.m.	17	220 yds. open
4.50 p.m.	18	Running high jump, open
4.55 p.m.	19	Running broad jump, open
5.00 p.m.	20	220 yds. open to Cadets
5.05 p.m.	21	100 yds. open
5.10 p.m.	22	75 yds. sack race
5.15 p.m.	23	Relay race, three men a side, open to representatives of football, baseball, lacrosse and Cadet teams

## OUTING TO BE HELD MONDAY

Union Church Basket Picnic Will Be Held at Deep Cove; Good Line of Sports

The Union Church Sunday School will hold their annual picnic next Monday at Deep Cove. A special B. C. Electric car has been chartered for the occasion, which will leave Sidney way at 1.30 p.m., returning at 8 p.m. All kinds of sports will take place during the afternoon and everyone is looking forward to a real good time.

## STRAWBERRY FESTIVAL

The Ladies' Aid of the Union Church is holding a strawberry festival at the home of Mr. and Mrs. J. Taylor this afternoon.

## CONCERT AT JAMES ISLAND SATURNA ISLAND NEWS ITEMS

Event Will Probably Take Place Tomorrow Afternoon; Teacher Leaving.

(Review Correspondent)

JAMES ISLAND, June 21.—It is intended to hold a school concert prior to the closing of the school. At the time of writing the date has not been definitely fixed, but it will probably be held on Friday of this week. By that time two of the senior pupils, Miss Lillian Martin and Miss Ruth Richards, who are at present in Sidney writing their examinations, will have returned and be able to take part in the programme.

Miss McEachern, school mistress, intends leaving for Calgary immediately after the closing of school, but before she leaves we wish to thank her for the exceptional interest she has taken in her pupils. Miss McEachern has performed all her duties very efficiently and it is with much regret that we will bid her farewell.

Mr. C. W. Holland has been appointed secretary of the Moore Club in place of Mr. Holyoake. His appointment gives the greatest satisfaction.

The latest addition to our fleet is a fine launch recently purchased by Mr. S. E. Spencer.

Miss Lena Broad, of the office staff, was called to Winnipeg recently on account of the serious illness of her mother. We regret to learn that Miss Broad arrived too late to see her mother before she died, and we extend to her our deepest sympathy. Miss Broad does not intend returning west for some time. Miss Heister Richards has taken over her duties temporarily.

Mr. W. Taylor has a fine crop of large sized new potatoes.

Mr. and Mrs. Bond and family went to town last week to attend the wedding of Mr. Wallace, brother of Mrs. Bond.

Mrs. Lang, who recently underwent an operation for appendicitis, is convalescing on the island with her sister, Mrs. J. Thompson.

Mr. and Mrs. D. Shearer entertained Mr. and Mrs. Webber and family of Victoria, last Sunday.

## COMMITTEE MEETING.

The Municipal Committee will meet on Thursday evening in Mr. Robert's office. A full attendance of members is requested. Important business to be considered.

## SURPRISE SHOWER AT GANGES C.P.R. PICNIC ON JULY 15

In Honor of Miss Violet Pengelley, Who Will Be Married Shortly.

(Review Correspondent.)

GANGES, June 19.—Mrs. J. Akerman, of North Salt Spring, held a surprise miscellaneous shower on Friday evening last for Miss Violet Pengelley, who is to be married soon to Mr. Bowden. The room was tastefully decorated with yellow crepe paper and roses with ferns. A large chair was prettily decorated under an arch, and Miss Pengelley was requested to sit there, then little Miss Akerman wheeled in a wheelbarrow covered with yellow crepe, which was full of presents. Many useful articles, towels, linen and aluminum wear being included. Tea was served and all wished Miss Pengelley much happiness in her coming marriage.

Mr. and Mrs. Norman Wilson, of James Island, came over in their launch to Salt Spring and camped at their summer cottage at Welby Point, returning to James Island on Sunday.

Dr. Sutherland and Mr. Wm. Sutherland, have returned from their month's holiday, which they spent in motor to the many interesting points on Vancouver Island. Dr. Sutherland is taking up her practice again, Dr. Bryant, of Beaver Point, having attended to it in her absence.

Mr. Kyle, of Vancouver, head of the B. C. Poultrymen's Union, has been paying Ganges a visit. While here he will appoint some one to fill Mr. Stanley Dean's place as local representative, as Mr. Dean is leaving soon. It is probable that Mr. S. Gregory will be appointed.

Rev. Geo. Dean and Mrs. Daen, who have been at their place on Salt Spring for several weeks, are returning to their home in Vernon. Mr. Dean being minister of the Methodist Church there.

There was a reception held at Mrs. Jane Mount's for the new minister, Rev. Stoodley, on Wednesday evening. There were quite a number who came to welcome Rev. Mr. Stoodley and his wife.

The school at Ganges closed on Friday, June 17, the children giving a very pretty Maypole dance. The school will be used next week by the children of Salt Spring Island who are taking their Entrance examinations.

Mr. and Mrs. Miller and three children of Victoria are visiting for a week at Mr. and Mrs. Hennekes' home at Central.

Mrs. Price, of Moresby, has returned home after a couple of weeks visit in Victoria.

Vancouver Employees Will Likely Hold Event at Mayne Island on Above Date.

(Review Correspondent.)

MAYNE ISLAND, June 21.—Mr. Brodie, general passenger agent of the C. P. R., Vancouver, writes, saying that he is trying to secure the Princess Adelaide for an excursion from Vancouver to Mayne Island on July 15. The C. P. R. employees of Vancouver sent two of their representatives last Tuesday to inspect the picnic and baseball grounds and were greatly impressed with both. They expressed the hope that arrangements could be made to hold the picnic here on July 15.

It has also been intimated that the C. P. R. employees of Victoria will also hold their annual outing here about July 23.

The firm of David Spencer may also choose Mayne Island as the scene of the annual outing for their employees later on in the season.

On June 17 a delightful dance took place in the Mayne Island Hall, about sixty people being present. The visitors from Saturna Island were Mr. and Mrs. P. Georgeson, Mr. H. Georgeson, Mr. Truworthy, Mrs. Macdowell, the three Petford brothers, From Galliano, Mr. and Mrs. Twiss, Miss Gilmour, Mr. and Mrs. Verney, Mr. and Mrs. Thomas, Mr. and Mrs. Stanley Page, Miss Stewart, Mr. Lightfoot, Mr. A. Cayzer, Mr. Davie and Mr. J. David. After a good supper they continued dancing until the early hours of the morning.

Mr. Aldous is again this week surveying for Mr. Georgeson, also finishing Mr. Jack's survey.

Visitors to the island this week from the prairies have been looking for small plots of land with a view to settling here.

A very jolly picnic was given last Friday evening in honor of Miss Winifred Bellhouse (a graduate nurse) and Miss Updgraff on Galliano Bluffs where one gets a magnificent view of the surrounding islands.

Tennis has started in full swing on Mayne and Galliano.

Miss V. B. Maude leaves for Vancouver today, where she will be the guest of Miss (Betty) Roberts.

The result of the dance on June 17 netted \$20 towards the recreation grounds where improvements are already going on.

Mr. Emery has erected twenty small tables in the grounds behind his store to accommodate from 8 to 20 people, also two long tables 50 ft. in length, swings for the kiddies, hot water supplied free of charge at all times. The grounds are open to the public.

Second Street, Sidney

# How to Hive a Swarm of Bees

Written For Review Readers by an Expert

As the swarming season draws near, get things ready so that there will be no delay should a swarm issue unexpectedly. In the apiary house, or some convenient place where the bees cannot gain access, have a hive already filled with frames of drawn comb, one or two of which should contain a little honey. Alongside the hive place a white sheet, an apple box or tin dish pan, a cloth to cover same, a bee veil and a hive stand. All is now ready for the hiving of a swarm. Remember, being prepared not only saves time, but often the loss of a swarm.

As soon as a swarm issues from a hive, watch it until the bees cluster, which they generally do on a near by bush or tree. As soon as the cluster is formed remove the hive from out of which they have just swarmed to a position two feet to the rear of its old stand and facing in the opposite direction. Put the hive previously prepared on the old stand, spread the sheet out in front of the hive, placing a stone on the corners to prevent the wind from blowing it about, go to the back of the hive, remove the cover and fold the quilt back about two inches, place a small stone or piece of wood across the end of the hive in such a manner as to provide an opening of about half an inch on replacing the cover. This

acts as a ventilator. A strong swarm will often hang around the outside of the hive, or even abscond, if their new home seems poorly ventilated. Put on the veil, take the box or dish pan and the cloth to cover it and go to the place where the bees have clustered; hold the box under the cluster and give the branch to which they are attached a sharp, vigorous shake. The bees will drop into the box and should be covered with the cloth provided for the purpose. Carry them to the site where the new hive has been set up and shake them out onto the sheet about a foot from the hive. The bees will immediately commence to occupy the hive. After all has quieted down remove the sheet and leave the new colony until evening, when the ventilator should be closed. Set the spare stand in position and carry the old colony to it.

By following this method the new swarm receives all the field bees from the old hive, making it stronger and leaving the parent colony correspondingly weaker and consequently less likely to swarm again. About eight days after the first swarm, the first of the young queens will emerge and then a second swarm may go off with some of these queens, and a third may even follow a few days later. These second and third, or after

swarm as they are sometimes called, are usually too weak to be of much value and should be united or returned to the hive the following day. Another method of hiving a swarm is to carry the hive previously prepared to the base of the shrub on which the bees are clustering, spread the sheet in front of the hive and shake the bees onto the sheet. After the bees have entered the hive and settled down, remove the old colony to the rear of its stand as mentioned above, and place the hive containing the swarm on the old stand. The old colony can be placed in its permanent position in the evening.

## Some Pointers.

Always have a spare hive on hand. Give the hives and supers a coat of paint. They will last much longer and look better than when unpainted.

Buy your hives locally and encourage home industries.

Old sacking makes a good fuel for the smoker.

It takes about twenty four days for a drone to develop. They are hatched from infertile eggs.

Worker bees require twenty nine days from the time the egg is laid till they are fully developed.

The virgin queen will emerge from the cell about sixteen days after the egg is laid.

No. Then you have missed something that is well worth seeing, and you will have the chance of seeing fish run this year in August. Don't forget the month of August. If you chance to be in the city of Vancouver next August you will see placards posted up all over the city advertising the big run on the Fraser river. The time occupied by the fish to ascend the river is generally three days. After that they disappear as quickly as they came. Salmon have been caught and marked and set at liberty again, and in four years' time have returned. The old fish are lighter in color externally than the younger ones, although in size they may be the same.

## A Closed Day.

Once a week, from 12 o'clock on Friday night until 6 o'clock on Sunday night, all fishing operations are suspended by law. This is in order to give a certain number of the fish a chance to perform the task for which they have come hundreds of miles to perform, viz., to reach the upper waters of the river and deposit their ova or spawn.

Saturday is occupied in washing and mending nets and laying in supplies for the following week. Sunday morning and afternoon is devoted to resting, and late in the afternoon preparations for the fresh start are made. At 5 p.m. on Sunday all the boats on the river take up their positions in midstream on the Fraser river. No nets are cast for the hour has not yet arrived. The boats hover about the "net man," that is to say, the man whose duty it is to attend to the net, is sitting in the stern waiting, while the engineer keeps the engine slowly in motion. A line of boats stretches away on either side as far as the eye can reach. All are waiting. Promptly at 6 p.m. a cannon is fired on shore. Its report booms away over the water. This is the signal for which all have been waiting and on shore may be seen crowds of sightseers who have come to witness the commencement of another week's toil. The instant the gun on shore is discharged the netmen begin casting their 900 feet of net overboard four feet at a time to avoid its getting twisted. Nothing can be heard save the noise made by the corks on the nets hitting against the side of the boat, while they are being cast overboard. A line of boats containing several hundreds is drifting down the river. When the mouth of the river is reached all nets have to be taken on board owing to the many snags which are opposite the Scotch cannery. The fishermen now proceed to the spot they intend to occupy for the next five days. Some remain on the river all the week, while others head for the open sea and the steamer course off Point Roberts.

The last time my partner and I fished on the Fraser, the river which has yielded many fortunes and taken hundreds of lives, was in the summer of 1914. That sea on the fishing fleet numbered over 4,000 boats. I was on the river when the news of the great war reached us. Many men applied for a licence to fish for the Government. The Department refused to grant any more licences as they considered that 4,000 boats was sufficient.

# THE REVIEW

## British Columbia Fish

By "Free Lance," Salt Spring Island.

### Sockeye Salmon.

The sockeye salmon and the humpback salmon, the latter having a hump on its back, are undoubtedly the two most important of all the fish which inhabit the waters of the coast of British Columbia. About July 12 the season for the sockeye salmon commences, and ends about Aug. 20.

### The Big Run.

Once in every four, and occasionally once in five years there is what is known as "the big run" on the Fraser river. Every year the sockeye and the humpback salmon gather together in the channels near the Sand Heads of the Fraser river. Coming for hundreds of miles back to the place of their birth in order to deposit their ova, or spawn, in the same river in which they mothers laid the spawn from which their offsprings were hatched, these fish congregate in thousands and in the year of the "big run" they number hundreds of thousands. This is the year for the celebrate "big run" to occur on the Fraser river towards the end of August.

After their long swim these remarkable fish lie on the sandy bottom of the channels around the mouth of the Fraser river, just as though they were resting before making a last effort to perform the crowning work of their lives. Then, on a certain day, they all begin to leave the salt water and enter the fresh water of the river to lay their eggs among the water rushes, many miles up, which fringe the bank on either side.

No one can tell just exactly when the thousands and millions of sockeyes, which have for weeks been in croaking in numbers out on the Sand banks, will begin to enter the river, and everyone is on the alert watching for them. Boats that have since the opening of the season on Aug. 12 been recording catches of from twelve fish per twenty-four hours, will suddenly find their nets full of fish. Hundreds of them straining the net to the breaking point. Then they know that the fish have commenced to ascend the river, and those fishermen who for various reasons prefer to fish in the deep sea, leave their favorite grounds and enter the river in order to get a share of the harvest of sockeyes while they are "running."

### Boats.

The ideal size for a boat for fishing sockeyes on the Fraser river and its adjacent waters is twenty-five feet in length with a seven foot beam, curved at 8 a.m. At about 9.30 a.m. and drawing four feet of water. The lower the cabin is the better for it, and was again caught and told that offer a resistance to the wind. A he would have to pay an additional boat this size fitted with a twelve horse power engine makes an ideal boat for the work. The first thing and was again caught and told that I went to the river on partner's other boat of 170 m.p.s. of making a and I had a boat thirty feet long total of \$60 in fines. The Japanese with a draught of six feet and low end, laughed for he had caught more than our boat being too large, we were too weak of to catch fish were on several occasions handicapped in the forbidden centre, so he and put his gunning on the sandbank, and he and I went to the river, but at the mouth of the river, but he had no left over.

mon fishing industry are the kind known as gill nets or drift nets. These nets are made of thin hemp twine three, four and five twine. They are named according to the number of strands of twine they contain. A five-twine is the best and at the present time costs between \$400 and \$500. When the net is thoroughly washed in fresh water once a week and soaked in a solution of blue vitriol or copper sulphate for from 12 to 24 hours in order to kill all insect life among the strands, it will remain a serviceable net for two seasons. After that the twine becomes rotten and allows the fish to break through and swim away.

### The Price of Fish.

The catch from each boat, which in most cases contains two men, is bought by the canneries at so much per fish, no boat being allowed to sell more than 200 fish a day.

Humpbacks command a slightly lower price than the sockeyes, owing to the quality of their flesh not being so good. They are canned in a different shaped tin to the sockeye, which is the very choicest meat of all the salmon of British Columbia.

The nets, according to the British Columbia law, must not exceed 150 fathoms, which is 900 feet, but most of the Japanese and many of the white fishermen fish with a net and a half, and I have seen them using two nets. A net and a half would be a net of 1,350 feet in length, and what is known as two nets is really one net twice the lawful length, viz., 18,000 feet long.

### Steamboat Course.

From each bank of the Fraser river towards midstream for a distance of fifty feet, is what is termed the steamboat course. That number of feet on each side of the river is to remain open for the river traffic to proceed up and down the river. No nets are allowed to be put in this course. A fine of \$20 is charged to any man caught fishing in this channel. Police boats patrol the river to watch for and catch law breakers. My partner and I preferred deep sea fishing for various reasons, although the danger and also expenses are greater. One day while we were spending a few hours drifting on the river opposite the Stevenson cannery before taking to the open sea, I saw the police catch a Japanese fisherman fishing in the steamboat course.

The police took the number of his boat, and told him he would have to appear in court a few days later and pay the \$20 fine. This occurred at 8 a.m. At about 9.30 a.m. and drawing four feet of water. The same Jap did the same thing, and was again caught and told that offer a resistance to the wind. A he would have to pay an additional boat this size fitted with a twelve horse power engine makes an ideal boat for the work. The first thing and was again caught and told that I went to the river on partner's other boat of 170 m.p.s. of making a and I had a boat thirty feet long total of \$60 in fines. The Japanese with a draught of six feet and low end, laughed for he had caught more than our boat being too large, we were too weak of to catch fish were on several occasions handicapped in the forbidden centre, so he and put his gunning on the sandbank, and he and I went to the river, but at the mouth of the river, but he had no left over.

### While the Fish Run

## SUNFLOWERS AS A SILAGE CROP

Much interest is being taken both in Canada and the United States in the value of sunflowers as a silage crop, particularly in districts where corn is not a reliable crop. The claim is made that sunflowers are a harder crop than corn, withstanding both drought and frost to a greater degree. Insofar as the claims put forth for sunflowers as a food for cattle are virtually of recent origin, experiments and investigation regarding them are practically in an introductory stage. It is interesting to note, however, that an analysis of sunflower silage fed at an Idaho agricultural experimental station indicated that if compared favorably with corn silage. In Canada also studies of the relative value of sunflowers and corn for silage purposes suggest that in nutrition there is not any great difference, although corn is to be preferred where it can be plentifully and easily grown. Where this is not the case, sunflowers are an excellent substitute.

## A Cool Treat for Sore Tired Feet

You cannot work well or play well unless your feet are in good condition. If you wish to insure comfort, use

### Rexall Foot Powder

for relief of burning, smarting, perspiring feet. Particularly beneficial in case of corns, bunions or callouses. Promotes and maintains foot comfort. We also sell Perspiration Deodorants, Talcum and other preparations.

## SIDNEY AND ISLANDS REVIEW

And Saanich Gazette

F. F. FORNERI, Publisher.

Issued every Thursday in Sidney, B. C.

Price, \$2.00 per annum in advance.

All advertisements must be in The Review Office,  
Third street, not later than Wednesday noon.

### ADVERTISING RATES

Legal notices, 12 cents per line first insertion, 5 cents  
per line each subsequent insertion.

Announcement of entertainments, etc., conducted by  
churches, societies, etc., where admission is charged 10  
cents per line.

### LET US HAVE A CLEAN-UP.

IN view of the approaching celebration of Dominion Day in Sidney, and the opening of the War Memorial Athletic Park and Children's Playground, would it not be a splendid idea for all tradesmen and residents to inaugurate a clean-up day, say next Monday afternoon? There is a lot of junk, old cans, pieces of lumber, paper and rubbish lying about. The removal of which would considerably improve our town. Let us pull together in this, and it will be surprising what a difference a general clean-up will make to the appearance of the pretty place in which we live.

### AN INVITATION.

FOR several months there appeared in The Review a page of statistics regarding incorporation, and also an invitation to all and sundry to send correspondence for or against the scheme. We received nothing against the scheme, and received only one or two short letters in favor of it.

Have you, Mr. Opposition, got any good argument against the Sidney School District incorporating? If you have let us have it by all means. All we ask is that the communication be signed, but your name will not appear unless you wish it. What the people are after is light on this important matter, and the more light there is the better the situation will be understood by all. The only restriction we place on the correspondence is that no personalities be indulged in. We try to keep away from that objectionable feature in The Review on all occasions. There are times, of course, when it is impossible to live strictly up to this rule.

Let us hear from you, Mr. Opposition. Give us the benefit of your opinion of the question.

### WHAT OF THE FUTURE?

THE future, of course, is beyond our ken, but there is not much doubt that history will repeat itself, and after the present prolonged depression there will come a season of prosperity. This has been the case all over the world almost since the beginning of time. It is depressing to see some people these days. They imagine that the conditions which we are experiencing at the present time will last as long as the world lasts, and they walk the streets with long faces, and the very atmosphere is charged with pessimistic thoughts.

Some fine day there is going to be a change, and it is the wise man that prepares for the prosperity that is sure to come. The dollar today is purchasing considerably more than it did six months ago, and conditions are gradually becoming normal. One has but to take note of the money deposited in the savings department of the various banks to realize that this will not continue for an indefinite period. People are buying today just what they need, and no more. But whoever heard of a people doing that for an indefinite period. There will come a time when the people will buy, and buy heavily, and when that happens most of the factories in the country will be working overtime to satisfy the demand. Don't think the country has gone to the "bleeding how-dows" for it hasn't. We look forward to an era of prosperity within the next few months. Let us all think the same, and get right down to business and make it come true.

### IMPROVED SEED.

THE Dominion Department of Agriculture, through the Seed Branch, works in active co-operation with the provinces in the matter of improving grain and field seeds. Money is provided to pay prizes in standing field crop competitions, at seed fairs and provincial seed exhibitions, and in combined seed crop and cleaned seed competitions. The last named is a recent introduction. It has two distinct phases, the first consisting of a standing field crop competition and the second of threshed and cleaned seed in which the seed produced from the fields of the first phase is judged in the granary of the competitor. The competitors must have at least fifteen entries in each, and the foundation seed used must be of approved origin. The minimum quantities of cleaned seed that competitors must be prepared to submit to qualify for awards are: Wheat, barley, peas, buckwheat and corn, each 100 bushels; oats, 200 bushels; field beans, 25 bushels; clovers and timothy, 1 bushel; and potatoes, 150 bushels. The awards, except in the case of potatoes, are made on a basis of 5 per cent on the bin score and 35 per cent on the field score. In the case of potatoes the method is reversed, the award being based on 35 per cent on the bin score and 5 per cent on the field score. All agricultural associations are eligible to conduct these competitions, provided the association conducting does not conduct a field crop competition in the same season with the same kind of crop. To the prize money a number of exhibition awards and the Dominion subsidy of \$200 in each instance and the provincial prize of \$100 in each instance are added.

It is estimated that one pound of sheep's wool can produce one yard of cloth.

### SPRING FOREST FIRES.

ONE of the most dangerous seasons of the year in regard to forest fires is now at hand and it behooves all who go into the forest on any business to be careful with fire. People do not realize that just at the close of winter, through which there is scarcely any danger from fire in the woods, comes on the most dangerous season. Care by all who go into the woods at this time means a great reduction in the fire-hazard.

### POSITION NOT UNDERSTOOD.

THERE seems to be some misunderstanding regarding the Incorporation Committee. For the benefit of those who have overlooked the fact it might be as well to remind them that this committee was appointed at a mass meeting to gather data regarding the advisability, or otherwise, of incorporating the Sidney School District. This committee is not self-appointed, and is only carrying out the wishes of those who appointed them.

It might be a surprise to a number of people to know that this committee is not all of one opinion regarding incorporation. The members of the committee are giving their time to this matter simply because they were requested to do so.

### THE DEATH WARRANT OF OUR EXPORT TRADE.

THE following is taken from a pamphlet entitled "The Bacon Hog and the British Markets, prepared in 1916 by the late Mr. John Bright, and Mr. H. S. Arkell, Dominion Livestock Commissioner, defines the position today of the heavy hog in Canada very plainly:

"There is no sound argument for the production of the fat hog in Canada. We have long since been forced out of that business because of the peculiarly strong advantages possessed by the United States in the marketing facilities and outlet for the product of that type of hog. The nature of our home and export demand makes the bacon hog the necessary type for the Dominion. To produce the fat hog economically for the feeding of large quantities of cheap corn is an absolute necessity and the greater part of the hog output of the United States is produced in the corn belt. Canada cannot begin to produce a similarly large amount of cheap corn and fat hogs cannot be produced for competitive marketing unless grown on corn."

"There is a certain rigid home demand for our fat hogs but as soon as this demand has been supplied and the attempt made to dispose of the surplus in Great Britain we should find ourselves put out of business by American competition. If we lose the bacon hog we sign the death warrant of our export trade in hog products."

### A GLIMPSE AT CANADA'S AGRICULTURAL WEALTH.

A TABLE given in the Report of the Dominion Minister of Agriculture for the year ending March 31, 1920, places the value of all field crops in that year at \$1,812,915,500, and the value of dairy products at \$247,531,352. The number of horses in the country is given as 3,667,369, the number of milch cows as 3,548,437, other cattle as 6,536,574, sheep as 3,421,958; and swine as 3,040,070. Except in swine these numbers are slightly in advance of those given in the previous year and swine are quoted as more numerous than in 1915, 1916 and 1917. A noteworthy statement is that in three years of the war the Imperial War Office was supplied under the supervision of the Dairy Branch of the Department with hay, oats and flour to the value of \$98,631,568, representing 481,250 tons of hay, 76,495,221 bushels of oats and 984,782,080 bushels of flour, for which approximately 24,000,000 bushels of wheat were required. Another statement of special interest is that the livestock that came under the supervision of the Live Stock Branch, during the year, was in excess of 2,800,000 head, valued at over \$200,000,000. During the year, 3,788,138 pounds of wool were graded by the branch for farmers' cooperative organizations. The dairy business is shown to have developed greatly, especially in the prairie provinces, where the output of creamery butter has increased in a decade from 5,478,304 lbs., to 25,356,711 lbs. A vast variety of information is given in the departmental report, which details in a comprehensive, well digested way, the operations during the year of all the experimental farms and stations and all the branches and divisions.

### BULLETIN REGARDING FERTILIZERS.

THE Provincial Government has issued a new bulletin which deals in a very comprehensive manner with the fertilizers required in this province for the varying conditions of soil that are met with. The bulletin has been prepared by Mr. W. Newton, B.S.A., M.Sc., Chief Soil and Crop Instructor of the Department, and should prove of great value to progressive farmers who are interested in the improvement of their crops by carefully studying soil conditions. An application to the Provincial Department of Agriculture for a copy of this bulletin will bring you one free of charge.

### NO DOUBT ABOUT IT.

A teacher who had given a lesson on geometrical drawing asked her class the question "How can you make a Maffee crock?"

One bright little girl raised her hand at once and, on being asked for the answer, replied without hesitation "Place a teacher's top on a tail!"

The deaf and dumb language was introduced in the year 1719.

## The Fluctuating Dollar

At present, a dollar is worth only about 60c to spend; but it is worth \$1. to save. Because, dollars deposited in a Savings Account will steadily increase in buying power as the world gets on its feet again and the supply of commodities grows equal to the demand. Buy only what you cannot do without. Put your dollars away in a Savings Account until their buying power becomes more equalized.

## "THE WITCH'S SECRET"

## Chapter 2

The same evening, after Bryant and Jenny reached home, the Jones children passed by the Witch's cave. Of course they did not know about the Witch. Mary and Evan were quarrelling over the starfish which they carried in a basket between them. Mr. Jones had promised 20¢ for every twenty-five starfish. He wanted them for his vegetable garden. This was the second lead they had carried up from the beach, and Mary was tired and cross. The first arrangements they had made was that the two children would divide the money equally between them; but now Evan declared that as he had found more than half the starfish, and carried the bucket alone part of the way, it was only fair that he should have most of the profits. But Mary said that she was the eld-

est of the family, and big people always got paid higher wages than little ones. She said that if Evan had been a nice boy he would have carried the heavy bucket all the way by himself, and been glad to help a lady. By this you will see that Mary, who was eleven years old, was not an easy person to work with. Just as Evan, roused to sudden anger, had dropped his side of the bucket, causing Mary to let go her side as well, and just as Mary had shouted "You mean pig!" as loudly as she could, the Witch poked her head out of the dark cave's mouth.

"Get along home, you naughty children!" she croaked.

Evan and Mary, uttering a scream of terror, to their heels and away they ran as fast as their legs could carry them. They scrambled up the bank to the road, and kept on going at top speed, never once looking behind them till they reached home. How should they know that the poor old Witch could not even come out of her cave, much less would she be likely to chase after two quarrelsome children in the rain. The Witch, back in her cave, under the rocks, after being away in a far country for 120 years, was condemned to stay there until something should happen. What that something was I shall not tell you just yet, for it was the Witch's Secret.

(To be continued)

## THREE LITTLE RULES.

Three little rules we all should keep  
To make life happy and bright—  
Smile in the morning; smile at noon;  
And keep on smiling at night!

—Stella George Stern

## A THURSDAY PRAYER.

O God, it's Thursday, and the week  
Is going toward an end.  
Each day Your love has cared for me,  
Each day you are my friend.  
For all Your constant care of me,  
My daily life should prove.  
That I am grateful to my God  
For His unfailing love.  
Dear God, I thank you from my heart  
For all You give to me,  
O, help me never to forget  
To thank You earnestly. Amen

—John Martin

## GIANT SHIPS OF LONG AGO.

In these days we are proud of our large and wonderful liners, such as the "Mauritania" and "Olympic," which are as comfortable as the best modern hotels on shore. Many of us may be surprised to learn that there were sailing ships built by the kings of Sicily, Macedonia, Alexandria and Asia, during the third century, before Christ was born, which were of huge size. They were fitted up with most luxurious deck houses, with baths of bronze, and marble walls, paintings, statues and mosaic work. They had libraries and covered walks along the deck, and there were vines growing and fruit trees in flower pots. There was music and dancing on board, and the owner and his friends lived in luxury. Two ships such as I have described were actually found 35 ft. below the surface of the Lake of Nemi, not far from the Campanian coast. They still lie there, and from inscriptions found on pieces of lead piping which were brought up by divers the vessels are proved to date back as far as A. D. 37-41. One of the ships was found to be 450 ft. long, and about 192 ft. wide. The decks were paved with elaborate mosaic work. The bulwarks had been solid bronze, which bore traces of having been gilded. Divers brought up many beautiful sculptures. The outside of the vessel was covered with cloth smeared with pitch, and over this was thin sheet lead fastened down with copper nails.

## ABOUT WEARING OF UNIFORMS

Information of Interest to All Returned Soldiers Will Be Found In Order Just Issued.

In the Orders of the Day, dated May 5, from Military District No. 11, the following appears:

## Unauthorized Wearing of Military Uniform.

157. (1) It has been brought to the attention of Military Headquarters that there are numerous cases of civilians wearing, without authority, military uniform, mainly great coats, and requests have been made for instructions as to what action should be taken in the circumstances.

(2) The person who without authority wears uniform, or portions thereof, come within two main classes, viz: (a) Discharged soldiers who have been permitted to retain their uniform on discharge, and persons who have purchased a uniform, which has been sold to them, and who have not been permitted to wear it.

(3) The person who without authority wears uniform, or portions thereof, come within two main classes, viz: (a) Discharged soldiers who have been permitted to retain their uniform on discharge, and persons who have purchased a uniform, which has been sold to them, and who have not been permitted to wear it.

when not attending drill or going to and from drill, or on other occasions not designated in the Militia Act, and the regulations made thereunder, wear their great coats, breeches, etc., which have been issued to them.

(2) It is considered that steps should be taken to prevent, as much as possible, the unauthorized wearing of uniform, or articles of clothing so nearly similar to the military uniform as are likely to be mistaken therefor.

(3) The Criminal Code (R. S. C. Chap. 146), was amended by the Statutes of 1920 (10 and 11, Geo. V., Chap. 43), Section 10 of which chapter adds a new section to the Criminal Code, viz: 137 (a). This amendment provides, in brief, that any person who, without lawful authority, wears any uniform of His Majesty's Naval, Land and Air Forces, as to be likely to be mistaken therefor, shall be liable on summary conviction to a penalty not exceeding \$300 or to imprisonment for any term not exceeding twelve months, or to both fine and imprisonment.

(4) This section can be invoked as authority for proceeding in the above-mentioned cases, but, before any proceedings are so instituted against persons who commit the above mentioned offence, warnings should be issued throughout the districts warning all concerned that the unauthorized wearing of any uniform of H. M. Naval, Land or Air Forces, or of any uniform so similar as likely to be taken therefor, constitutes an offence under the Criminal Code, and that persons committing such offence will render themselves liable to prosecution, and, further, that all persons who wear great-coats, tunics, etc., must have the buttons and badges removed, thereby rendering them less liable to be taken for military uniform.

(5) Officers Commanding Units are therefore instructed not only to issue orders prohibiting the use of uniform for other than military purposes, but to have such instructions posted up in all rooms and quarters in their charge.

(7) It is intended to issued printed posters to Districts. In the meantime, it is suggested that type-written notices be used.

## MASONS TO VISIT GARDENS

Large Number Will Take Advantage of the Opportunity to Visit This Picturesque Spot

(Review Correspondent)

TOD INLET, June 21. Tomorrow afternoon the delegate to the Grand Lodge of Masons of British Columbia, who have been celebrating their semi-centennial anniversary in Victoria for the past two days, will motor out to the gardens of Mr. R. P. Butchart. This is one of the most favorable seasons for a visit to this charming spot, as the roses are all in bloom, and the many varieties and beautiful colors of these beautiful flowers which are to be seen on every hand are well worthy of attention.

Mr. and Mrs. C. Strohm visited friends at Wilkinson Road on Sunday afternoon.

There was a lively demand for boats at Brentwood over the weekend, a number of persons coming from the city to enjoy a few hours fishing on the Saanich Arm. Several good catches were recorded.

Several of the smaller boys and girls of the village went over to Sluggs Beach on Saturday, but failed to locate any other members of the picnic party, the weather evidently being too unpleasant for outdoor amusements.

On Wednesday afternoon Mrs. E. Reese and daughter, Miss Joyce, were the guests of Mr. and Mrs. Lafaux. Mr. J. H. Haggart and niece, Miss Helen Ray, visited friends in Victoria on Sunday afternoon.

Dr. Jones, of Victoria, called upon several of his old friends in the village on Monday afternoon.

Messrs. P. Connell, R. Tubman, F. Chubb and R. J. Parsell paid a visit to Bamberton on Thursday evening.

Mrs. R. P. Butchart attended the card party which was held at the home of Miss Helen McDonald, St. Charles street, on Wednesday afternoon under the auspices of the Marguerite Chapter, I. O. O. F.

Mr. and Mrs. Zellenki visited at the home of Mr. Keddie, Victoria, on Thursday last.

On Sunday afternoon Mr. and Mrs. H. L. Knappenberger and family, accompanied by Mr. and Mrs. R. J. Carrier and baby, motored out to Sooke. After a short rest at Sooke Harbor hotel, during which they enjoyed afternoon tea, the party returned home after a trip around some of Victoria's beautiful driveways.

Mr. and Mrs. Arthur W. Connell and family will be transferred to the Bamberton on Monday evening, when they will be joined by Mr. and Mrs. J. H. Haggart and family.

Mr. and Mrs. J. H. Haggart and family will be transferred to the Bamberton on Monday evening, when they will be joined by Mr. and Mrs. J. H. Haggart and family.

The Bamberton employees will have a holiday on July 1, and they are making plans for a picnic to be held at Maple Bay. As a number of the men have their own private launches, this will no doubt be a pleasant outing as the trip from Bamberton to Maple Bay is a pleasure long to be remembered.

On Thursday last Mr. and Mrs. R. P. Butchart entertained Rear Admiral J. S. Hoare, of the United States navy, and Mrs. Hoare, of Cast and Mr. Tropp, of Victoria, having motored them out for a brief visit before leaving the city after a two days' visit.

Messrs. E. Sidwell and a party of friends motored out to the former's ranch at Deep Cove on Thursday evening last.

## NEW SUPERINTENDENT.

Mr. E. M. Streight, superintendent of the Dominion Experimental Station at Morden, Man., will succeed Prof. L. Stevenson at the Sidney Station, and will assume his duties at the end of the present month. Mr. Streight is a graduate of Guelph College, and was a fellow student there of Mr. Stevenson's.

Mr. Stevenson and his family will leave for Toronto at the expiration of his duties here, where they will reside in future. They will carry with them every good wish for their happiness and prosperity from the residents of Vancouver Island.

## ASSOCIATED BOARDS OF TRADE.

Arrangements are under way for the annual convention of the Associated Boards of Trade. The date has been tentatively fixed for Thursday, July 21. At the last convention it was decided to meet this year at Port Alberni, but it is not yet clear if this can be arranged.

## BOY SCOUTS

## The Scout Law.

1. A Scout's honor is to be trusted.
2. A Scout is loyal to God and the King, and his officers, to his parents, his country, and his employers or employees.
3. A Scout's duty is to be useful and help others.
4. A Scout is a friend to all, and a brother to every other Scout.
5. A Scout is courteous.
6. A Scout is a friend to animals.
7. A Scout obeys orders of his parents, Patrol leader or Scout Master, without question.
8. A Scout smiles and whistles under all difficulties.
9. A Scout is thrifty.
10. A Scout is clean in thought, word and deed.

## The Scout Obligation.

"On my honor, I promise to do my best:

To do my duty to God and the King.

To help other people at all times.

To obey the Scout law.

At the Troop meeting last week the time was spent in tracking through the bush and fields by means of signs. Some of the boys are very quick at picking up and following a trail.

Last Sunday we tried to signal from Sidney Spit to Brennan's Beach. Although we were able to see the two stations with glasses, we could not receive accurately, the distance being about three miles.

The Troop will meet tonight at 7 o'clock sharp on the beach.

V. GODDARD,  
Scout Master

## What to Do in Case of Drowning Accident

Dr. Fischer, of Vienna, declares that he is able to revive human life after it has been submerged in water for up to six hours, and that hundreds of lives are sacrificed every year by clinging to the old methods, which must be as hot as can be borne by the hand, the old and ordinary methods of resuscitation are resorted to, viz., artificial respiration, or the use of the pulmotor.

Doctor Fischer claims that he has never failed in this method of resuscitation which has been applied in dozens of cases. By this process it is possible to save the lives of persons apparently drowned after attempts have been made to restore them by the use of artificial respiration, so that, if necessary, the old method of resuscitation may first be adopted, followed by immersion in hot water and artificial respiration, or the use of the pulmotor.

"To restore animation, I proceed first to thoroughly warm the body, which has been chilled by submer-

The time used in Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight. The figures for height serve to distinguish High Water from Low Water.

## WATER NOTICE.

(Use and Storage)

TAKE NOTICE that we, the Sidney Water and Power Company, Limited, whose address is Belmont House, Government Street, Victoria, B. C., will apply for a licence to take and use 50,000 gallons of water a day and to store 50,000 gallons of water out of a spring known as V. & S. Railway well, which flows north-easterly and drains into Hazan Bay, about one mile south of Sidney, B. C. The storage dam will be located at the Company's tanks, northwest corner Sect. 5, R. 11 E. The capacity of the reservoir to be created is about 200,000 gallons. The water will be diverted at the spring at a point about 900 ft. N. W. of the S. E. corner of Sect. 7, Range 11 East, and will be used for waterworks purposes upon the land described as Sections 6 to 16 inclusive, Ranges 2, 3 and 4 East, North Saanich District. This notice was posted on the ground on the 18th day of May, 1921. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Victoria, B. C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is 26th May, 1921.

SIDNEY WATER AND POWER COMPANY, LIMITED, Applicant

## WATER NOTICE.

(Diversions and Use.)

TAKE NOTICE that Sidney Mills, Limited, whose address is Sidney, B. C., will apply for a licence to take and use 100,000 gallons per day of water out of two springs known respectively as the Victoria and Sidney Railway Spring and the Sidney Rubber Roofing Spring on the property of A. Harvey and E. Blackburn, both said springs being situated on part of Sec. Seven (7), Range two (2), East, District of North Saanich. The water will be diverted from the said springs and will be used for industrial (sawmill) purposes upon the mill site described as Block 18, part Sec. 11, Range 4, East, District of North Saanich, and adjoining land used in connection with such mill site. This notice was posted on the ground on the 23rd day of May, 1921. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Victoria, B. C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

SIDNEY MILLS, LTD., Applicant

Extended G. H. Walton, Manager.  
The date of the first publication of this notice is May 26, 1921.

# Mr. Ed. Ittor's Census Form

(By P. W. Luce, in "The Weekly Clam.")

It is the custom of the newspaper men to publish a four-page newspaper in the city where they hold their annual conventions. This year's issue contains many good things, one of which is the following:

At a cost of \$2,000,000 Canada is taking a national census of all men, women, and children, crops, animals, money, houses, oil stock certificates, bugs and bees, ideas, vegetables, rhubarb jams, empty bottles, telephone numbers and weekly editors in the glorious Dominion on which the sun never sets in the East.

Although every effort has been made to throw an aura of secrecy over the valuable data collected by an army of bright young men, there is one well-filled census form that has filtered through the veil, and which is here reproduced in the strictest confidence. It evidently concerns one of the guests of the British Columbia Institute of Journalists, probably the editor of Canada's most interesting weekly newspaper, who is one of the brainiest men in this gathering, even if his hair is getting a little thin on top.

Just as a matter of form, we'll reprint the form:

Q.—Name of all members of the family?

A.—Ed. Ittor; Friend Wife; Pryn. Tersdevil, The Office Cat.

Q.—Where living?

A.—At home.

Q.—Relationship of parties named above?

A.—Fairly good.

Q.—Ages?

A.—Grand total of 123 years.

Q.—Sex?

A.—Certainly.

Q.—Religion?

A.—Spasmodic.

Q.—Language spoken?

A.—Frequently bad.

Q.—Read and write?

A.—Read perfectly, and write good enough to get rejection slips from all leading American magazines.

Q.—Work?

A.—Y-y-yes, sometimes.

Q.—Total earnings in 1920?

A.—\$67,946.23, of which the 23 cents and some of the dollars were paid in cash, balance in fame.

Q.—When last out of work?

A.—Yesterday afternoon at 3 seconds after four; four o'clock being quitting time, but the clock running slow unbeknownst to me.

Q.—Any occupation besides one at present engaged in?

A.—Yes, tide-waiter. I wait for the tide to come up, then wait for it to go down again.

Q.—Recreation?

A.—Doing nothing, except on rainy days, when I go out to Jericho Beach and watch the clams yawn.

Q.—Teetotaller?

A.—Up to and perhaps, unfortunately, including the fifteenth of June, when B. C. turns on the spigot.

Q.—Have any physical disabilities?

A.—Subcutaneous lacerations superinduced by attacks of Culex Culicidae.

Form B.

Q.—How big is your back garden?

A.—It is bounded on the north by a wooden fence, on the west by raspberry canes, on the south by a staggering woodshed, and on the west by a caterpillar pasture.

Q.—Any cows in milk?

A.—No, but I have some condensed milk in cans.

Q.—Any hogs?

A.—Only my neighbors.

Q.—Chickens.

A.—Just the Little Girls Next Door.

Q.—Hens, old stock?

A.—There are three old hens who live across the back lane.

Q.—Other fowl? WRITE NAME.

A.—One Cochon China hen, name of Judith Lee; two black Minorcas, names of Chuch-Chuch and Biddy-Come-Here; one Plymouth Rock, name of Rip Van Winkle; one Rhode Island, name of Trotzky, one lame duck, name of William Jennings Bryan; one stuffed cockatoo, name unknown; one humming bird, name of Bzzzzzzzz.

Q.—Will you swear at this census?

A.—With pleasure! Of all the d— brain rack- ing— Sif— Spttt— . . . ptt— . . . rip!!!! . . . Swear? Well . . .

## A MISAPPREHENSION.

The big, athletic looking man approached the counter at the fur department.

"I want a set of furs," said he. "A present for a lady."

"Any special kind, sir?" inquired Jenkins, the assistant.

"If it's not too expensive, that dark brown set in the window."

"Oh," interrupted Jenkins, "you mean skunk!"

Jenkins is still in hospital.

## GOOD IDEA.

Just take an hour off and go over the house or the office in search of a usable article that some one else wants more than you do. Then tell them about it in a Review classified ad.

## LUKE McLUKE SAYS

(From Winnipeg Free Press.)

Why is it that so many men imagine that the school of experience is a night school?

A study of the police records will show that one of the moss-gathering variety is always being rolled by some rolling stone.

A successful life means toiling and sweating nine-tenths of your life so that you can spend the other tenth in comfort.

The foot and mouth disease has been stamped out among cattle. But the mouth disease is still epidemic among humans.

People are always hollering about easy divorces. But if you think they are so easy try to get one.

People would live a whole lot longer if they would use procrastination on their worries the way they use it on collectors.

If the girls could see their elbows the betting is that they wouldn't be anxious to display them.

Sympathy may be displaced every now and then, but it is never lost.

The prodigal son was an ornery pup, but he got fame and fat feeding. His brother stayed at home and behaved himself, and he did the chores and ate the scraps from the table.

Our thinkers and inventors have worked wonders in their time. But in 10,000 years of improvement they haven't been able to improve on love-making.

When we were 14 years old we went to school with a 14-year-old girl. Now we are over 50 and she is 38.

Of course this will make the women snort. But this country contains too many women who are so busy looking after other women's children that they haven't time to look after their own.

## USEFUL HINTS

Soap, naphtha preferred—For coarse boards and heavy kettles.

White laundry soap—For high-grade woodwork, glasses and china.

Scouring compound—For porcelain and windows.

Steel wool—For removing wax from floor before applying new covering for painted or varnished surface.

Floor wax—For floors and furniture.

Kerosene—Outdoors disinfectant, pouring down drains, cleaning enamel sinks, tubs, etc.

Ammonia—For washing windows and linoleum.

Borax—For softening water and washing glassware.

Chloride of lime—Disinfectant for bathroom.

Whiting—For cleaning enamelled paint and nickel.

## SUGGESTIONS.

TO CLEAN WHITE KID GLOVES—Place them upon the hands, have ready two vessels partly filled with gasoline, one for first cleansing, the other for rinsing. Proceed as if washing the hands, using a small hand brush and ivory soap. When quite clean wipe with a clean towel while still on the hands. Remove and hang in the sun and air. The gloves when dry will be beautifully soft and white.

DAINTILY EMBROIDERED BIBS FOR A BABY may be slipped over half of an ordinary dress shield. This, of course, is impervious, so that the child's neck and dress are never dampened nor soiled, and the thin covers are much more easily laundered than thick, quilted bibs. The half shield is exactly right size and shape, is merely to be found where cut and may be washed.

WASHING SILK HANDKERCHIEFS—No soap should be rubbed on silk, no soda should be mixed in the water, and the handkerchiefs should on no account be boiled.

## The Unsophisticated Clam

(From "The Weekly Clam.")

The unsophisticated clam lay dreaming in the mud. When on his senses smote a faint but ever nearing thud. He moaned "Some clamor's clamming and is thirsting for my blood."

With terror numb, he cocked his eye towards whence the noises came.

But only spied a sparsely bathing suited little dame. Relief and rapture thrilled him, would not you have felt the same?

She bore a dainty basket and held something in her hand.

Her slippered foot wriggled as she gravely searched the strand.

That bivalve's heart near bustled and he gurgled "Am she grand?"

Inane with love he bobbed up from out his oozy bed. He cooed and with a clammy cake beat him upon the head.

Why she's a clamor clammer, as he died, well he said.

(Moral: Don't be a clam.)

John For

# JOB PRINTING

We are in a position to handle job work in a satisfactory manner, and will appreciate any orders received. The Review plant is well equipped in every way, being the largest and most up-to-date of any found in a town the size of Sidney. We have added considerable equipment to the Review plant during the past year or so in order to be in a position to successfully handle anything that may be placed in our hands in the commercial job printing line. The Review has had splendid support in this direction, and this fact is very much appreciated. If at any time our customers are not satisfied we hope they will tell us so, and we will endeavor to make it right. We go on the principal that only the very best work is wanted by our many customers, and we endeavor to give them what they want. To those who have printing to be done, we ask them to give us a chance to do it. We feel sure that our prices will be found reasonable, consistent with good workmanship.

## ALBERTA MARKETS

(Market Examiner, Calgary, June 17, 1921)

### CATTLE

Superior finish was shown on some of the steers this week, and tops advanced, with medium steers steady and common ones lower; cows a little easier. Choice steers, \$6.50@7; good, \$5.50@6.25; medium, \$4.50@5.25; common, \$3@4.50. Choice cows, \$5@5.35; good, \$4.50@5; medium, \$1.00@4.50; common, \$3@4; canners, \$1.50@3. Bulls advanced 50c on the good ones, \$3.25@4; medium, \$2.00@3. Calves unchanged, but 1 \$@1.10; common, \$3@6. Stocker and feeder market dull and lower; feeders, \$4.25@5; stockers, \$3@4.25; stocker heifers slow; milk cows in good demand, dairy type cows up to \$130.

There were some exceptionally good steers in Edmonton this week, and there was a top of \$7.50, but they were exceptional, and ordinary choice steers are \$6@7; good, \$5.50@6; medium, \$4.50@5.25; common, \$4@4.50. Choice cows, \$5@5.50; good, \$4.50@5; medium, \$3.50@5; common and canners, \$1.50@3. Bulls unchanged at \$2.50@3, and medium and canners, \$1.50@2. Calves steady at \$6@8, and common, \$4@5. Stocker and feeder movement is light, though a few loads of good feeders have been shipped to Ontario for finishing. Export buying is stimulating the Edmonton market on choice steers.

### HOGS

Strengthening markets culminated in a quotation of \$10.35 on the Thursday hogs at Calgary. Today's sales were at \$10.50@10.75.

Packers at Edmonton towards the week end could not take kindly to the advance, but commission men held out for \$9.50.

### SHEEP

More butcher sheep at Calgary this week, with some spring lambs at \$11, and others down to \$8.25; wethers, \$7.25@8.25; ewes, \$5.50@7.

### HORSES

Several teams of good heavy horses were sold at the Calgary stockyards on Thursday by J. W. Durno to the Banff parks superintendent at prices ranging from \$400@575. They were all outstanding horses.

### GRAIN

Prices continue to show fluctuations, largely due to crop conditions as reported from day to day. Canadian reports are generally satisfactory. Moisture conditions in Alberta are somewhat irregular, but on the whole there is no complaint. Good week end rains in south, though some sections are getting dry.

### PRODUCE

Thank heaven The Examiner is at last permitted to record an advance in something—eggs are up half a dollar, to \$7.00, less off; no exporting, but storage and local demand handling receipts. Creamery butter is weak at the old prices of 30c and 35c for cartons. Carlot shipments not moving, as no market to which to ship at present values. Unless coast trade opens soon, production costs will have to be lowered. No dairy butter market, and prices 10c@14c; fancy and No. 1 table, 20c@25c. Edmonton milk price reduced to \$2.45. Poultry coming more freely, and prices lower; 19c@20c on fowl; 14c@15c on roosters. Dressed meat market demoralized, do not ship before getting prices. Potatoes weaker, \$14@16 at country points.

Eggs are advanced in Edmonton this week to \$7.25, and expected to hold about this level until hot weather eggs come on. Creamery butter weaker and quoted in cartons around 30c, and cartons 29c@30c; shipments being made to coast in limited volume. Local cheese bringing 19c@20c, and demand good. Cream prices unchanged, with station quotation 23c, 20c and 17c on special, first and second grades. Poultry is weaker and fowl quoted 18c; roosters, 14c, and turkeys, 30c. Receipts are increasing, and price tendency lower. Dairy butter very slow and quoted 10c@15c.

### HAY

Market very slow, and though not much on the market, demand is practically nil. Country point prices, \$15@17 on upland; timothy, \$22@24.

### FURS

Demand active, and following advances: Beaver, \$7@24; badger, 10c@1.00; coyote, 25c@7.00; lynx, \$7.50@22; weasel, 20c@50c; prospects good.

### HIDES

Very slow market again; no offers for country hides from tanners.

### WOOL

American market slow, and Chicago reports difficulty in getting any buying price; growers do not want to ship on consignment.

## Canadian Quiz Corner

(Copyright: Canadian Facts Publishing Co.)

Another week has come around for the budget of questions. Tackle them in earnest and see how many you can conquer. It will make a fine mental game and good sport.

### THIS WEEK'S QUESTIONS.

No. 1—Who were the Jesuit Fathers?

No. 2—Who were the first discoverers of Eastern Canada?

No. 3—What Canadian Premier held that office the longest?

No. 4—What is the strength of organized labor in Canada?

No. 5—What and where in Canada is "dry farming"?

No. 6—What was the name of the Treaty that concluded the war of 1812-14?

No. 7—How many Universities are there in Canada? Name them.

No. 8—What was the first vessel to cross the Atlantic from Canada on fire by steam?

No. 9—Where did the name La Chine come from?

No. 10—What is Canada's trade with the British Empire?

### ANSWERS TO LAST WEEK'S QUESTIONS

No. 1—Practically all the 100,000 Indians of Canada are on Reserves.

No. 2—The first European to enter Canada under Treaty, which is to run out of public domain and one who as long as the sun shines and the water runs, unless it is sold with the land, is to be sold with the land.

receive an annual cash gratuity from the Government and are aided in schools, farming, etc.

No. 2—There are 138,000 Baptists in Canada; 950 ministers and 1,336 churches.

No. 3—Canada's liquor consumption showed the lowest on record in 1919, viz., in gallons, per head spirits 3.91, beer, 2.948, wines, 0.25.

No. 4—Canada had, per census of 1911, 15,000 churches and 1,111,250 members.

No. 5—Champlain was the French explorer who made his way up the Ottawa River to Lake Huron, and back to Lake Ontario via the Trent River waters.

No. 6—George Brown was the founder of the Toronto Globe. He also took a prominent part in parliament and assisted John A. Macdonald in bringing Confederation to pass.

No. 7—Quebec has the largest total trade of any province in Canada, with \$208,595,362 of imports and \$88,928,342 of exports.

No. 8—The Sage of the Grange in Toronto was Goldwin Smith, professor of history and writer, who lived in the old building known as The Grange.

No. 9—Among Canada's largest cities in their order of population are: Montreal, 760,000; Toronto, 512,000; Winnipeg, 200,000.

No. 10—Joseph Howe was known as the Nova Scotia tribune, an emerald under Treaty, which is to run out of public domain and one who as long as the sun shines and the water runs, unless it is sold with the land, is to be sold with the land.

## Fulford Harbor Wins Ball Game

(Review Correspondent.)

FULFORD HARBOR, June 13.—The baseball club gave a dance here in the new hall on Saturday night. Owing to the absence from the island of many of the young folks and a regrettable lack of interest on the part of many of the older ones, the gathering was not a very large one. Those who were present enjoyed themselves thoroughly, however. Mr. Charles Maynard supplied the music for the dancing in his usual talented manner. One fact is worthy of note, there was a return to old prices. Admission was fifty cents, ladies with cakes, etc., free, and ice cream five cents.

South Salt Spring Notes.

Mr. T. Akerman is now one of the car owners of Salt Spring Island, he having bought the car formerly owned by Mr. Daen, of Ganges.

Mrs. Rosemergy is on the island for the week.

Mrs. Wesley Brethour, of Victoria, is staying with Mr. and Mrs. McLennan, of Beaver Point.

Five pupils of the Burgoyne Valley and Beaver Point schools are taking the examinations for entrance to High School this year. They are Miss Vera King, Miss Maggie Matheson and Miss Ivy Akerman, of Beaver Point, and Miss Gladys Shaw and Miss Jean Hepburn, of Fulford Harbor. The tests will be held at Ganges this year.

FULFORD HARBOR, June 18.—The regular monthly meeting of the South Salt Spring Women's Institute was held today and took the form of a picnic, given to Miss Mout, who is leaving here at the end of the present term, and to the children of

the South Salt Spring schools. The picnic was to have been held at Burgoyne Bay but owing to the day being very showery, Mrs. R. Maxwell, president of the Institute, kindly threw her house open to the thirty or so who had been brave enough to face the rain and turn out. The children enjoyed themselves thoroughly playing various games outside between showers and inside during the wetter moments. At five o'clock tea was served and all enjoyed the excellent viands which the ladies of the Institute had provided. Shortly afterwards Miss Mout was made the recipient of a gift in the form of a box of chocolates. Vernon Douglas made the presentation on behalf of the pupils of the Burgoyne Valley school as an expression of their appreciation of her kindly interest in them during school hours.

FULFORD HARBOR, June 20.—Yesterday afternoon the athletic grounds here were the scene of a baseball game between the local team and that from Reid Island. The weather was fine and the large crowd of enthusiasts who were present were well repaid for the trouble of turning out. Owing to the lack of practice at this early stage of the baseball season, both teams showed some rather ragged work in places, but with the material to hand some high-class baseball should be seen on their next encounter. The game was full of excitement throughout, and although the local team forged ahead during the fourth innings, and stayed in first place until the contest ended twelve to six in their favor, it often looked as though the visitors were starting on a spurt that would bring home the bacon.

The pitching was the outstanding feature of the day, for all three pitchers had considerable on the ball and kept it over the plate so well that not a player got to first on balls. Philip Garand of the Reid Island team, was the only man to get there without working for it, he being hit by a ball from Peters, the local twirler. None of the players were able to slug the ball for a homer, and only one three-bagger, Ed Reynolds, of the locals achieved that honor in the last of the eight frames.

The line up of the teams was as follows:

Reid Island: Karr, catcher; Philip Garand, pitcher; Francis Crocker, 1b; George Rice, 2b; Joe Silvie, 3b; Alfred Rice, ss.; Wilfred Sylvester, 1f (collected Garand after the 4th); Jack Silvie, c.f.; Bob Modis, r.f. South Salt Spring: Walter Carley, catcher; Wilfred Douglas, 3b; Lou Peters, pitcher; Ed Lumley, c.f.; Angus Maxwell, 1b; Ed Reynolds, ss.; Frank Downey, 2b; Billy Hamilton, r.f.; Gerald Hamilton, 1f.

The Reid Islanders went to bat first, and before Peters had limbered up properly, touched him up for four runs. Garand, G. Rice, Joe Silvie and A. Rice being the men to cross the plate. Nothing daunted, Carley and Douglas, the first two Fulford boys up, succeeded in making the circuit, but Peters and Maxwell were left on second and third when Downey, the third man down, flew out on a beautiful wallop.

In the second frame the first three men singled, but all three failed to reach second safely. In the last half the locals added one more counter when Carley singled, made second on a passed ball, stole third and came home on another pop.

Both pitchers tightened up in the third and struck out two men each, the third man failing to reach first.

remained 4-3 in favor of the visiting team.

The fourth innings saw the home team make its first big spurt. With Downey on second and the next two players down, Carley got a two-bagger, scoring Downey. Garand proceeded to go to pieces, and before the spasm was over Carley, Douglas, Peters and Lumley were safe over the pan, and the score was 4-8.

The fifth saw six men go down without one making first before the ball.

The sixth saw three more tallies go to the South Salt Spring score, when Douglas, Peters and Lumley came home safely and another run by Maxwell failed to count when G. Hamilton was cut at first.

The Reid Islanders were able to add two more runs to their side of the score card in the seventh, when Crocker and George Rice scored.

In the eighth Ed. Reynolds made his three-bagger, and came home on Downey's sacrifice, making the score six to twelve in favor of Fulford.

The ninth saw Reid Island up with their last chance to change the score, but they were unable to do anything. Crocker bunted, but was unable to beat Peters' throw to first. George Rice sent a high one to centre, but it landed in Lumley's mitt. Joe Silvie singled on a hot one to right field, but the game ended when he tried to stretch it into a two-bagger. Ed Reynolds ran him down after a forty-foot sprint down the baseline.

The Reid Islanders were by no means disheartened, but laid their defeat on the absence of some of their regular players.

The local club, helped by some of the ladies present, served the visitors with supper on the field.

Wilfred Sylvester of the Reid Islanders, and Angus Maxwell and Wilfred Douglas, of the home team, were prominent among the rest for their clean and snappy handling of the pill.

Jimmie Rogers, of Ganges, was the referee for the game.

### South Salt Spring Notes.

A road gang under Mr. R. E. Akerman, road foreman, is engaged in straightening out McCarthy's curve. The island motorists will welcome its removal, as it was a very dangerous corner.

The Rev. Mr. Stoodley, who has relieved Rev. Bishop Black as the Methodist minister on Salt Spring Island, accompanied by Mrs. Stoodley, have taken up their residence at the Fulford Harbor Parsonage.

Miss Spiera and Miss Haine, of Vancouver, are guests at the White House, Fulford Harbor, this week.

Mrs. Drummond spent last week with friends in Victoria and returned home on Saturday evening, accompanied by Miss Margaret Spurr, eldest daughter of Mr. A. H. Spurr, field supervisor under the Soldier Settlement Board.

## CONCERT NEXT WEDNESDAY SUCCESSFUL SOCIAL EVENING

A Varied and Interesting Programme Will Be Given at the Berquist Theatre on June 29

A splendid entertainment is being prepared for the residents of Sidney and district, by home talent as well as Victoria talent. The entertainment is being given under the auspices of the finance committee of St. Andrew's Church. Those taking part are Mrs. A. Beale, Miss Wilkinson, Mrs. F. Wright and Mr. Bob Sloan, who will appear in some new character sketches. Others taking part will be the following pupils of the B. C. Academy of Music, Victoria: Mr. Arthur Lee, Miss Colbert and Miss McKinnon.

Miss Barbara Parkes will also contribute to the programme.

Mrs. W. Patchell will officiate as accompanist for Mr. Bob Sloan.

In addition to the above the Sidney Dramatic Club will present "The Good Luck Lamp," with the following cast:

Miss Deering (a maiden lady) Mrs. Stanley Brethour.

Miss Alice Deering (her niece) Miss Edith Whiting; Harold Deering (her nephew) Mr. A. Critchley.

Annie O'Shane (an Irish maid) Miss Patty Simister.

Bill Murphy (a roughneck) Mr. P. N. Tester.

Archie Blake (impoverished lawyer) Mr. Bruce Burton.

Many of our citizens had the pleasure of witnessing this comedy some months ago, and they will doubtless be pleased to learn that it has been decided to repeat it here.

The entertainment will commence at 8:30 p.m. sharp, and it is hoped that a capacity house will greet the artists on this occasion.

Very Good Attendance at the Monthly Meeting of the Association on Tuesday Evening

The monthly meeting of the Parents' Teachers' Association was held on Tuesday evening last in the school house. A very enjoyable social time was spent by the many who were present.

The Rev. Mr. Griffiths gave a short address. In his opening remarks he humorously referred to his ability to say a great deal about nothing but his inability to say something in a few minutes. He emphasized the importance of the home and the school co-operating in the education of the child. That the true aim and object of education was not to train the child to earn dollars, but that he or she should live clean, honest, upright lives, doing their part to make the world a better place to live in. He also referred to the many sacrifices, and to how much was given up by the school teacher to carry on the noble ideals and work to which she had devoted her life; how important and great was the work of the school, and yet how little regard history had given to it, compared to other vocations of less importance.

Mrs. F. Wright delighted and charmed those present with singing several songs—in fact the limit was only reached when she had sung all the songs she had brought with her.

Miss Wright entertained and amused the audience with a clever recital of advice to young men of matrimonial intent.

Mrs. Beale, who had acted as accompanist for Mrs. Wright, and showed her ability in handling a very much out of repair organ, as well as an unruly stool, gave another exhibition of her ability with two excellent whistling solos.

Miss P. Simister also entertained the audience with singing several songs, which were very much appreciated.

Mr. J. F. Simister gave several recitals in his usual humorous and amusing manner. Mr. N. Fralick also recited, giving those present an account of some of the doings under the Northern lights and among the Arctic snows.

Song by Mr. Critchley was greatly enjoyed, and Mr. Jones had to appear three times before the audience was satisfied. Mr. Wesley Cowell also had to respond to the demands of an encore, which brought the programme to a close.

Before dispersing for home, the ladies served refreshments to those present, which was an enjoyable portion of the evening, the abundance and excellent quality displaying the trouble and pains taken by those who had provided them.

Though nothing was publicly mentioned it was generally realized by all present that the school stood in very great need of a good musical instrument. Owing to the difficulties experienced with the school organ Mr. Critchley kindly loaned his piano for the evening, he and several of the gentlemen present carrying it from his home on Dixie street.

Mr. W. H. Dawes officiated as chairman for the evening.

**SIDNEY WINS BALL GAME.**

Manlie Simpson pitched the local team to victory in an exciting ball game last Tuesday evening at the new grounds, the Sidney team handing out a defeat to the Machine Gunners from Brentwood. The score was somewhat large owing to some costly errors on the part of the fielders, but with a little more practice these holes will be filled up. The score last Tuesday evening was 14 to 10 in favor of the home team.

Notes.

Only a week remains for practice before the big game on the First.

The work on the Athletic Grounds is progressing and another week will see everything in readiness for the big day. The baseball diamond is greatly improved by a rolling after the last heavy rain.

TO SHIP 100,000 BRICKS.

It is expected that a scow from Vancouver will reach the Bajan Bay Brick and Tile Co.'s wharf this week and that the shipment of 100,000 will be loaded immediately upon arrival of the vessel. The bricks are for Messrs. Champion & White, of Vancouver. The firm will keep on hand about 50,000 bricks for local orders and will retain about 30,000 for use in the tile kiln, which will take about 60,000 bricks all told.

NO MEETING IN JULY OR AUGUST.

The Ladies' Auxiliary to the Veterans of France have decided to hold no meetings during the next two months, unless unforeseen circumstances arise.

Inspector in District.

Mr. R. R. Watson, Rec'd of Performance Inspector for the Dominion Government was a visitor at the home of Mr. and Mrs. G. Clark, Patricia Bay, last Sunday. Mr. Watson is on his periodical inspection tour which he has about completed in this district. Mr. Watson is being accompanied by Mrs. Watson.

ATHLETIC CLUB TO MEET.

A meeting of the Sidney Athletic Association will be held in the waiting room of the "Flying Line" this evening at 8 o'clock. All members are requested to be present as very important matters will come up for discussion.

CHANGES IN GAME ACT.

The open season for bear on Vancouver Island is from November 1, 1921, to June 30, 1922, both in- and out- season. The remainder of the province open season from September 1, 1921, to June 30, 1922, both in- and out- season. Provided that no bear shall be trapped in any part of the province.

## PICNIC HAD TO BE POSTPONED

Rain Last Saturday Interfered With an Outing Planned for the Children.

(Review Correspondent.)

WEST SAANICH, June 21.—Among the many picnics planned for last Saturday was one scheduled to take place at Sluggett's Beach in which Miss Anderson and pupils of the junior grade were to participate. Many anxious little faces gazed out in deep despair as the rain continued to fall, and they realized that all hopes of their outing must be abandoned. Tactful mothers soon turned the children's thoughts into brighter channels by reminding them that holiday time was close at hand and then they could have plenty of opportunities for merry gatherings.

The pupils of the West Saanich school are getting ready for "Sports Day," which will take place at the school grounds on June 24, and the members of the entrance class are promised a jolly outing on Saturday in company with their teacher, Mr. E. Sanders.

Mrs. Ludlow and Master Jack Clark paid a visit to relatives in Victoria on Friday afternoon.

Miss Ella Farsell spent the week-end with her parents at their home on Brentwood Road.

Mr. R. C. Lang, Mr. and Mrs. W. Lang, Mrs. M. N. Lang and Miss Lancaster, paid a visit to friends in Saanich on Sunday.

Miss Walker and Miss Kink were guests of Miss Lily Horne on Sunday afternoon.

Mrs. James Johnston entertained at a children's party at her home on Keating Cross Road on Saturday afternoon, in compliment to her daughter, little Miss Margaret Johnston.

Mrs. J. W. Sluggett was a visitor at the home of her sister, Mrs. Fairall, of Victoria, on Friday afternoon.

Mr. Victor Parsons is spending a few days as the guest of Mr. and Mrs. J. Chipperfield. Mr. Parsons arrived in Victoria from England.

Mr. Robert Hearle, of Victoria, spent Sunday at the home of his brother and sister-in-law, Mr. and Mrs. Walter Hearle.

Mrs. Kinsey and children were the guests of Mr. and Mrs. Thomas on Sunday last.

Miss Muriel Sait, who has been teaching in the University at Berkeley, Cal., for the past term, paid a visit to the home of her aunts, the Misses McDonald, on Wednesday last. She will spend the holidays with her parents in Victoria.

Mr. F. Walker, of Bamberton, spent the week-end as the guest of Mr. and Mrs. Thos. Walker, Brentwood.

Mr. Rear paid a visit to friends in Saanich on Monday afternoon.

Mrs. G. Knight and Mrs. T. Knight who have been visiting at the home of Mrs. Percy Marchant, were the guests of Mrs. R. W. Sluggett last week.

Dr. Whitehouse very kindly conveyed the West Saanich pupils of the entrance class to Saanichton each morning during examination week, thereby saving them the long walk from Saanichton station. His kindness was much appreciated.

Mr. J. Stewart is harvesting the strawberry crop on Mr. McMillan's property near Saanichton.

Birthday congratulations to Mrs. A. E. Guy, and to Miss Madeline Sluggett.

Mr. and Mrs. W. T. Pitzer, of Victoria, visited at the homes of Mr. and Mrs. L. Thomson and Mr. and Mrs. R. W. Sluggett on Friday last.

ASSISTANCE REQUESTED.

The North Saanich Women's Institute having full charge of the refreshments for the Dominion Day sports, have decided that as the proceeds are to be spent on the Children's Playground, it will be necessary to ask the public to help them, and request the ladies of the district to send a cake. Anyone who is willing to help with the work during the day is requested to communicate with Mrs. B. Deacon. Phone 20X.
